PROFESSIONAL SUMMARY

Aspiring Software Engineer with strong foundations in programming, data analysis, and problem-solving. Skilled in Python, Java, SQL, and cloud platforms. Adept at building scalable applications and contributing to team projects with innovation and efficiency.

EXPERIENCE

KonguEngineering College

- Gen Ai consortium Internships
- Participated in Hackathon BYTS and SIH
- Collaborated in a team of 4 to develop a smart dashboard for students and faculty
- Worked as Frontend Developer and in backend using MongoDB
- Implemented front-end logic in React.js and styled with custom CSS
- Project received appreciation for clean UI and responsive design

EDUCATION

B.E. Computer Science and Engineering

Kongu Engineering College

📅 08/2023 05/2027 📍 Perundurai

HSC Computer Science and Maths

Kongu Vellalar Matric Hr. Sec. School

📅 08/2020 05/2023 📍 Chennimalai

PROJECTS

Web Development Projects

Various projects showcasing front-end and back-end development skills

- Developed a book store and library management system using React and MongoDB as backend
- Created a smart institute management system using React.js (frontend) & MongoDB (backend)
- Built a medical chatbot using React.js and Express.js for frontend and Flask with a trained AI model for backend

STRENGTHS

Technical Proficiency

Detail-oriented with hands-on experience in multiple programming languages and web design

KEY ACHIEVEMENTS

Web Application Development

Developed multiple web applications that received positive feedback for design and functionality

SKILLS

C	CSS	Flask	HTML
Java	JavaScript	MongoDB	
MATLAB	Oracle Apex	Python	
React	Express.js		

INTERESTS

Web Development

Building responsive web applications and integrating AI models

CERTIFICATIONS

MongoDB Associate Developer – MongoDB University

Oracle APEX Development

Image Processing & Mathematical Computation using
